Professional Summary

Cybersecurity Master's student specializing in **ISO 27001 audits**, **risk assessment**, and **secure system implementation**. Skilled in penetration testing tools (Kali Linux, Metasploit, Burp Suite, Wireshark) and compliance frameworks. Demonstrated ability to integrate security controls into audit platforms and deliver professional risk assessments aligned with international standards.

Education

Higher Institute of Management (ISG) <i>Master's in Information Systems Security</i>	Tunis, Tunisia <i>2024 – Present</i>
Higher School of Digital Economy (ESEN) <i>Bachelor's in Business Information Systems</i>	Tunis, Tunisia <i>2021 – 2024</i>
– Graduated with High Honors	

Work Experience

ANCS Tunisia <i>Intern – Information Security / Audit Platform</i>	Tunis, Tunisia <i>Jun 2025 – Jul 2025</i>
– Contributed to an internal audit platform ensuring ISO 27001 compliance , focusing on access control and data protection.	
– Implemented secure authentication (JWT) and role-based access control (RBAC) safeguarding sensitive audit data.	
– Developed audit logging mechanisms aligned with ISO 27001 requirements.	
– Documented workflows with UML diagrams to optimize audit and risk management processes.	
HRS Tunisia <i>Intern – Web Application Security (Final Year Project)</i>	Tunis, Tunisia <i>Feb 2024 – May 2024</i>
– Designed a financial web platform with emphasis on secure API integration and data integrity .	
– Applied best practices for encryption and secure transactions in a multi-bank environment.	

Projects

Internal Security Audit Report – TechConsult S.A.	
– Simulated an ISO/IEC 27001:2022 internal audit across 7 security domains , including access control, network security, asset management, and incident response.	
– Identified 4 medium-risk gaps and recommended improvements such as MFA enforcement, phishing awareness campaigns, and monthly backup testing.	
– Produced a compliance checklist, risk summary, and professional final report.	
Third-Party Risk Assessment – Zoom Video Communications Inc.	
– Performed a simulated security risk assessment of Zoom against ISO 27001 , SOC 2, and GDPR controls.	
– Evaluated 10 key security controls , achieving a score of 9.5/10 and identifying residual risks.	
– Documented findings and mitigation recommendations in a professional report.	

Technical Skills

- **Cybersecurity:** ISO 27001 Audits, Risk Analysis, Compliance, Logging, GRC Platforms
- **Tools:** Kali Linux, Metasploit, Nmap, Burp Suite, Wireshark
- **Programming (for secure development):** Java, Python, Spring Boot, Angular, PostgreSQL

Certifications

- **ISO/IEC 27001:2022 Lead Auditor** – Mastermind Assurance (2025)
